

DEUTZ SHARES

The world's stock markets were characterised by strong price volatility in 2016. Following a very weak start to the year and a subsequent period of recovery, the United Kingdom's vote to leave the European Union in June 2016 subdued the markets only temporarily. After rallying at the end of the year, the DAX closed on 30 December 2016 at its high for the year of 11,481.06 points. This was 6.9 per cent above the level at the end of 2015.
